# ReadingPen®2

- The ReadingPen®2 is designed specifically to help readers improve their reading skills. This fully portable scanning device helps with reading fluency and comprehension by providing immediate definitions for scanned text. Scanned text and definitions can be read aloud, allowing readers to maintain their reading flow, even when encountering unfamiliar words.
- Displays scanned text in large characters. Displays syllabic division of words (most products), reads scanned words aloud using Text-to-Speech technology and spells words letter-by-letter.
- Enhances the reading experience by increasing fluency and vocabulary
- Reads any printed material. Use with books, magazines and newspapers.
- Simple to use, with intuitive user-friendly interface.
- Take the ReadingPen® wherever you go. This small, portable, handheld device is designed to fit in your pocket.
- <http://youtu.be/siDB2bx5fpU>
- **Cost: \$150.00-300.00**

# Live Scribe Pen

# Live Scribe Pen

- Just tap on your notes and your smartpen will **play back the professor's explanation** - word for word.
- **Transfer your notes to your computer** so you can search for key phrases and create custom virtual notebooks to better organize your notes.
- **Review an interactive, digital version of your notes and audio** called a pencast. Pencasts allow you to hear, see and relive notes exactly as they were captured
- Cost: \$99.99
- <http://youtu.be/UzoJMcZR1QA>
