

# Enable Lockdown Browser

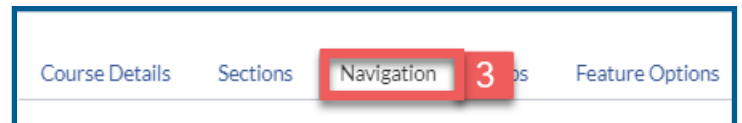

To use the Respondus Lockdown Browser in your class, you must enable the Dashboard for your use.

1) Enter the course in which you wish to use the Lockdown Browser (LDB)

2) On the Course Menu, click on **Settings**

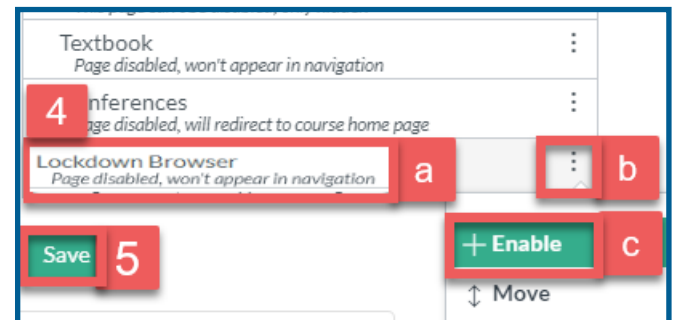

3) At the top, Center, Click Navigation to go to the Navigation tab to change the course menu

4) There are two sections:

Bottom section is for Disabled items, look here for **Lockdown Browser**

- a. Select **Lockdown Browser**
- b. Click the *Kabob* to access the drop-down menu
- c. Click **Enable**

5) You may return to the top to move the position up or down on the list, but when you are done, return to the bottom and click **Save**.
