

Provision a Canvas Class with Panopto

Provisioning a class is necessary before you can search videos or record from within Canvas. You can always copy/past a hyperlink to your videos.

1. Enter your class in Canvas
2. Go to **Settings** in course menu
3. Click the **Navigation** Tab at the top
4. Find **Panopto Recordings** on the “hidden” list (these do not appear in alphabetical order)
5. Click on the Triple-Dot (Kabob) and select **Enable** from the drop-down.
6. Scroll to the bottom and Click **Save**

7. Panopto Recordings will appear on your course menu
8. Click **Panopto Recordings** in the menu
Canvas and Panopto will communicate and a folder will be set up on the Panopto server for your class.
9. **In Canvas there is no distinct “Assignment Folder.” Students will record work In the class Panopto folder and put the links in Assignments.**
