Are you prepared?

Do you want to help your school campus in an emergency?

C.E.R.T. is a positive and realistic approach to emergency and disaster situations where citizens may initially be on their own. While people will respond to others in need without the training, one goal of the CERT program is to help them do so effectively and efficiently without placing themselves in unnecessary danger.

CERT members are **NOT** first responders but offer support in our communities. Community Emergency Response Team is a group of community volunteers that learn to: manage utilities and put out small fires, provide basic first aid, learn how to search an area safely, help at local events and more!
