
How do I ensure I don't miss important messages about my financial aid?

The Office of Financial Aid and Veteran Services sends notifications to the students via their SIS Message Center, To-Do List, and school email. It is the students' responsibility to check these regularly and respond promptly if action is required on your part in order for us to process your financial aid. **Note:** If you fail to complete any of your to-do items your financial aid will not be processed.
